Health Services Priority Overview

Overall End Goals

- Timely healthcare assessment and treatment
- Positive provider engagement
- Increased community confidence in local health services

Priority 1
Care Navigation & Interagency Communication

01

- Local providers to have solid awareness and confidence in the different services available for Leeton residents locally, through outreach and virtually.
- The community can find the right care, no matter where they go first.
- Have a collaborative approach to respond to service gaps in future.

Priority 2
Mental Health

02

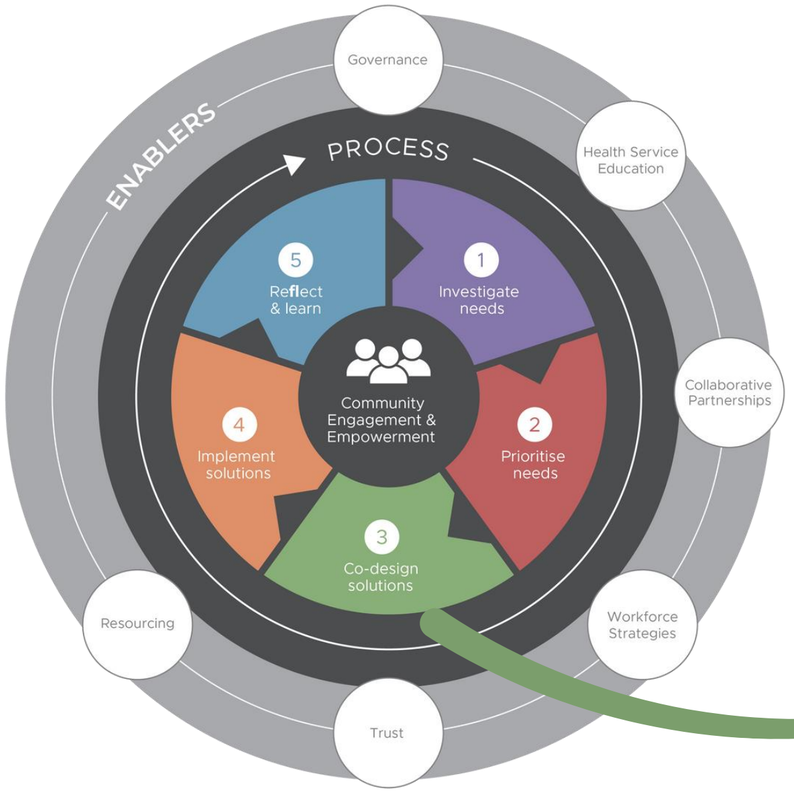

- Local providers, especially GPs, and have a deep understanding of the Mental Health Services available locally and virtually.
- Community is empowered with resources and information. on Mental Health Services and care navigation pathways.

Priority 3
Enhancing Primary Care – Family and Children

03

- Recruit 2 permanent GP/VMO to a local practice and Leeton District Hospital.
- Assist the MLHD campaign to recruit 2 permanent doctors for Leeton District Hospital.
- Increase access for community members to receive timely urgent care through innovative pathways.
- Increase access for pediatric care, assessment and extended services.
- Be the pilot location for an innovative GP succession planning program.

5. Next Steps

- Investigate confirmed actions in more detail
- Consultation with subject matter experts
- Create a draft co-design plan for each action
- Co-Design Workshop Feb 2026 – How, Who, When, Beyond
